

2020-2021

TIME TO THINK *OUTSIDE The box*

Factors that Determine the Learning Model

The Learning Model that is to be implemented at any point depends on the following factors:

- 1) Instructions given by the state health authorities
- 2) Instructions given by the federal and state education authorities
- 3) Health and Safety recommendations by International Schools Partnership

Our priority will always be the **safety of our entire community**, which is why we are prepared to guarantee our students' learning in any of the three Learning Models

- **Distance Learning Program** (PAD)
- **Blended Model** (Combination of face to face classes and PAD)
- **F2F Model** (Face to Face)
