

2020-2021

TIME TO THINK *OUTSIDE The box*

Access to the School

During the three Learning Models (**PAD, Blended Model, F2F Model**) the following guidelines will apply when entering the School:

Access will be granted for three reasons only:

- 1) During entrance and exit procedures (without getting out of the car).
- 2) When going to the School Cashier with a previously arranged appointment. (caja@itjqro.edu.mx).
- 3) To pick up students from the Medical Service office..

Before reaching the entrance security point, all the passengers in the car must place their face masks (covering nose and mouth) so the staff at the entrance point allow them in the School. The staff at the entry point are not allowed to give access to cars with passengers that are not wearing face masks or that do not display the current Ramp Color Poster. Only one person per vehicle is allowed to enter the School Cashier wearing their face mask properly (covering nose and mouth) at all times.

All the appointments related to academic, social or emotional follow-up of the student will be held via Google Meet.

To avoid adult traffic during school hours with students, while we are in the Blended and F2F Models, the School Cashier's opening schedule will be during the afternoon (after the students leave the School). This schedule will be established prior to the beginning of both Models.
